

TABLE OF CONTENTS	Page
Preface	i
Review	
A brief synopsis of the current status of pea cytogenetics. S.V. Temnykh and N.F. Weeden.....	1
Linkage Groups	
Linkage groups of pea. (Assembled by the Linkage Committee).....	4
On the pea linkage map. T.H.N. Ellis, R.P. Hellens, L. Turner, C. Lee, C. Domoney and T. Welham.....	5
Mapping Guidelines	
Guidelines for future mapping studies in <i>Pisum</i> . (Report from the Linkage Committee).....	13
Research Reports	
Floral abnormalities in the fasciated line G38E. M.J. Ambrose.....	15
The <i>chlorotica</i> mutation in line Wt11019 shows linkage with group 6 marker <i>Pl</i> . S. Apisitwanich and W.K. Swiecicki.....	17
A more precise location of the breakpoints in Hammarlund's K-line. V.A. Berdnikov, F.L. Gorel' and S.V. Temnykh.....	18
Pea gene <i>sym8</i> affects symbiosis both with <i>Rhizobium</i> and with endomycorrhizal fungi. A.N. Kolycheva, L.M. Jakob, A.Y. Borisov, A.A. Filatov, I.A. Tikhonovich and G.S. Muromtsev.....	22
Genes <i>a</i> and <i>d</i> may not be in the same linkage group. O.E. Kosterin.....	23
Mapping of the new mutation <i>blb</i> and the problem of integrity of linkage group 1. O.E. Kosterin and S.M. Rozov.....	27
The early nodulin gene <i>Enod12A</i> is in linkage group 3. A.E. Men, A.Y. Borisov, S.M. Rozov, V.E. Tsyganov and I.A. Tikhonovich.....	32
The effect of bean yellow mosaic virus and peanut stunt virus on poly (A) ⁺ RNA- mediated protein synthesis in pea. K. Ostrowka and I.M. Frencel.....	34
Further evidence that <i>Td</i> is located on pea linkage group III. N.O. Polans.....	36
<i>Ramosus</i> loci <i>rms-3</i> and <i>rms-4</i> are in pea linkage groups 1 and 7, respectively. A.T. Poole, I.C. Murfet and R.E. Vaillancourt.....	40
Location of gene <i>lum-3</i> in relation to <i>tl</i> and <i>gp</i> . S.M. Rozov.....	43
A new Fix ⁻ mutation in pea shows linkage with group 3 marker <i>M</i> . S.M. Rozov, A.Y. Borisov, V.E. Tsyganov and I.A. Tikhonovich.....	45
A new version of pea linkage group 5. S.M. Rozov, S.V. Temnykh, F.L. Gorel' and V.A. Berdnikov.....	46
Screening of pea genotypes for seed longevity. G. Singh and S.S. Gil.....	52
Seed development in <i>Pisum</i> . Possible intragenic recombinations at the <i>Lh</i> locus. S.M. Swain and J.B. Reid.....	53
Flowering in pea: a mutation of <i>Lf^d</i> to <i>lf^a</i> and a summary of induced <i>Lf</i> mutations. S.A. Taylor and I.C. Murfet.....	60
Seed mutants in <i>Pisum</i> . T.L. Wang and C.L. Hedley.....	64
Letters to the Editor	71
Genetic Resources/New Varieties	72
