In honor of Ian Murfet	iii
PGA Notes	iv
Review	
Update on the genetics of flowering Weller, J.L.....	1
Research Papers	
Hybridization barrier between <i>Pisum fulvum</i> Sibth. et Smith and <i>P. sativum</i> L. is partly due to nuclear-chloroplast incompatibility Bogdanova, V.S., and Kosterin, O.E.....	8
Characterization of microsatellite loci using selected pea accessions and recombinant inbred lines (RILs) Moreno, R.R. and Polans, N.O.....	10
A new mutant allele of the symbiotic gene sym40 of pea (<i>Pisum sativum</i> L.): dynamics of arbuscular mycorrhiza development Nemankin, T.A., Shtark, O.Y., Zhernakov, A.I., Borisov A.Y. and Tikhonovich, I.A.....	13
Relationship between different fasciated lines of pea Sinjushin, A.A. and Gostimskii, S.A.....	16
Gene-based markers of pea linkage group V for mapping genes related to symbioses Zhukov, V.A., Kuznetsova, E.V., Ovchinnikova, E.S., Rychagova, T.S., Titov, V.S., Pinaev, A.G., Borisov, A.Y., Moffet, M., Domoney, C., Ellis, T.H.N., Ratet, P., Weeden, N.F. and Tikhonovich, I.A.....	19
Brief Communications	
Isolation of pea (<i>Pisum sativum</i>) mutants impaired in arbuscular mycorrhiza development, using a direct screening Shtark, O.Y., Ovchinnikova, E.S., Zhukov, V.A., Nemankin, T.A., Titov, V.S., Borisov, A.Y., Gianinazzi-Pearson, V., Seddas, P., Ambrose, M., Ellis, N. and Tikhonovich, I.A.....	26
Pea mutant line Sprint-2Nod-3 represents a new mutant allele of pea symbiotic gene sym19 Zhukov V.A., Borisov A.Y., Tikhonovich I.A.....	27
Abstracts from Oral Presentations: 2007 North American Pulse Improvement Association Meeting	
Field evaluation of biological control and fungicide seed treatments for	

pre-emergence damping off of chickpeas Leisso, R.S. and Burrows, M.E.....	28
Cultural and DNA-based identification of <i>Sclerotinia trifoliorum</i> infecting chickpea in the U.S. Njambere, E.N., Chen, W., Frate, C., Temple, S.R., Wu, B.M. and Muehlbauer, F.J.....	30
Molecular identification of genetically distinct accessions in the USDA chickpea core collection Varshney, R.K., Coyne, C.J., Swamy, P. and Hoisington, D.....	32
Screening lentil accessions for lodging tolerance Ward, W.O. and Vandenberg, A.....	34
The genetic basis of <i>Fusarium</i> root rot tolerance in the 'Afghanistan' pea Weeden, N.F., and Porter, L.....	35
Abstracts from oral presentations at the 2007 NAPIA meeting	37
Poster Session from the 2007 NAPIA meeting	42
Genome Resources	
List of genes postulated to be on pea LG III between <i>Fed1</i> and just distal to <i>Egl1</i> Weeden, N.F. and Moffett, M.D.....	45
Membership List	64
